ARTIST INFO

Formed in 2015 in Chur, Switzerland, Arcaine has steadily built a reputation as a defining force in technical melodic death metal. Their sound is a powerful fusion rooted in modern death metal, enriched with progressive structures, deathcore intensity, and a striking melodic sensibility. The result is a blend of crushing heaviness and razor-sharp precision.

The band's lineup includes Adrian Gisler (vocals), Brandon Wildhaber (guitar), Renato Davatz (guitar), Robin Tschärner (bass), Reto Camenisch (drums), and Curdin Fleischhauer (sound engineer). Together, they are known for combining technical mastery with emotional depth, a rare and compelling mix.

After making waves with their critically acclaimed debut *As Life Decays* in 2020, Arcaine returns in 2025 with a bold new chapter: the EP *Harbinger of Doom*. This release marks a clear evolution in their sound. Brutal yet melodic, tight yet expansive, the EP delivers thunderous blast beats, razor-edged riffs, and massive hooks, showcasing Arcaine at their most focused and ferocious.

Harbinger of Doom is more than just a new release. It is a declaration of intent. With this EP, Arcaine reaffirms their place at the forefront of the Swiss metal scene and sets their sights on larger stages ahead.
